AUSTRALIAN BATTERY RECYCLING INITIATIVE

## IMPLEMENTING NEW PACKING INSTRUCTIONS FOR ROAD TRANSPORT OF MIXED LOADS OF BATTERIES

### Australian Dangerous Goods Code 7.7

#### **About this Webinar**

The purpose of this webinar is to provide practical guidance on safe packing of mixed loads of batteries for road transport.

This webinar has been prepared by ABRI with input from the National Transport Commission and members of the Competent Authorities Panel to ensure that the information provided is consistent with the latest version of the ADG.

The Australian Dangerous Goods Code was updated to version 7.7 in July 2020 for implementation October 2020 with a 12-month transition period to follow.

#### **Who should attend?**

This webinar will be relevant to those who are:

- Responsible for storage, packing or transport by road of mixed loads of batteries
- Interested in safe storage of batteries

A certificate of attendance will be provided after the event.

#### **Cost**

\$95 +GST for non-members

\$75 +GST for ABRI & partner members

Payment is via PayPal or credit card. Please contact [rsvp@batteryrecycling.org.au](mailto:rsvp@batteryrecycling.org.au) if you need to pay by EFT.

**Offered with the following partners:**

#### **Topics**

The webinar will cover road transport compliance and best practice guidance including topics such as:

- General safety
- Choosing a qualified recycler
- Acceptable containers
- Packing instructions
